

A VAMPIRE MOTHER. A HUMAN FATHER. ...AND YOU THINK YOUR KID HAS TROUBLE FITTING IN?

Dawn is a special little girl with special needs. Born from a human father and a vampire mother who died while giving birth, Dawn requires blood to survive. She and her father travel across the country, assuming new identities and never staying in one place for very long — until a small-town detective with psychic abilities pays extra attention to the murder of one of his townsfolk.

DAWN is a fresh take on the vampire mythos, expertly written & directed by Jay Reel with stirring performances by a cast of newcomers you won't soon forget!

"An exceptional film, one that
reinvents the vampire genre in ways
I've never seen before..." - Film Threat
