

SUPERMAN ISN'T THE ONLY HERO RETURNING THIS SUMMER...

Jim inherits a 1940's giant robot from his grandfather. Unfortunately, he also inherits the robot's arch enemy -- a Nazi virus that turns ordinary people into cybernetic killing machines! Now, only a weapon from the past can save the future as Jim and Valkyrie must race to stop the newly-infected and their plans to take over the city in this zany comic book-style action/adventure!
