

# HAUNTED MINDS LIVE IN HAUNTED HOUSES...

FAT CAT DVD is proud to introduce its "International Collection" with the first English-language feature film from Egypt. Written & directed by Ahmed Khalifa, WINGRAVE is a supernatural thriller in the tradition of THE SIXTH SENSE and THE OTHERS that will haunt you long after you've seen it.

The dead never rest, as young parapsychologist Henry Wingrave knows too well. As he struggles with the decision of holding a forbidden form of a séance, he thinks back on three of his most challenging and life altering experiences of dealing with the restless dead. But in dealing with haunted minds for too long, Wingrave eventually becomes haunted himself, by the ghost of loss...
